

Table 5.

Summary of A-B-DRB1 haplotype sampling characteristics among the four US census population categories.

	African American	Asian	European American	Hispanic
Total sample size (2N)	4,778	3,516	15,734	3,968
Number haplotypes with n >= 1 (mean # haplotypes/sample)	2011 (2.2)	1388 (2.2)	2119 (6.3)	1732 (2.1)
% sample through the 1st 100 frequency ranked haplotypes	27	39	53	32
% of sample having haplotypes estimated with with n < 1	1.4	2.4	1.9	2.0
